

Agentic RAG — Block Diagram

End-to-end components for retrieval, reasoning, tool use, grounding, and response generation

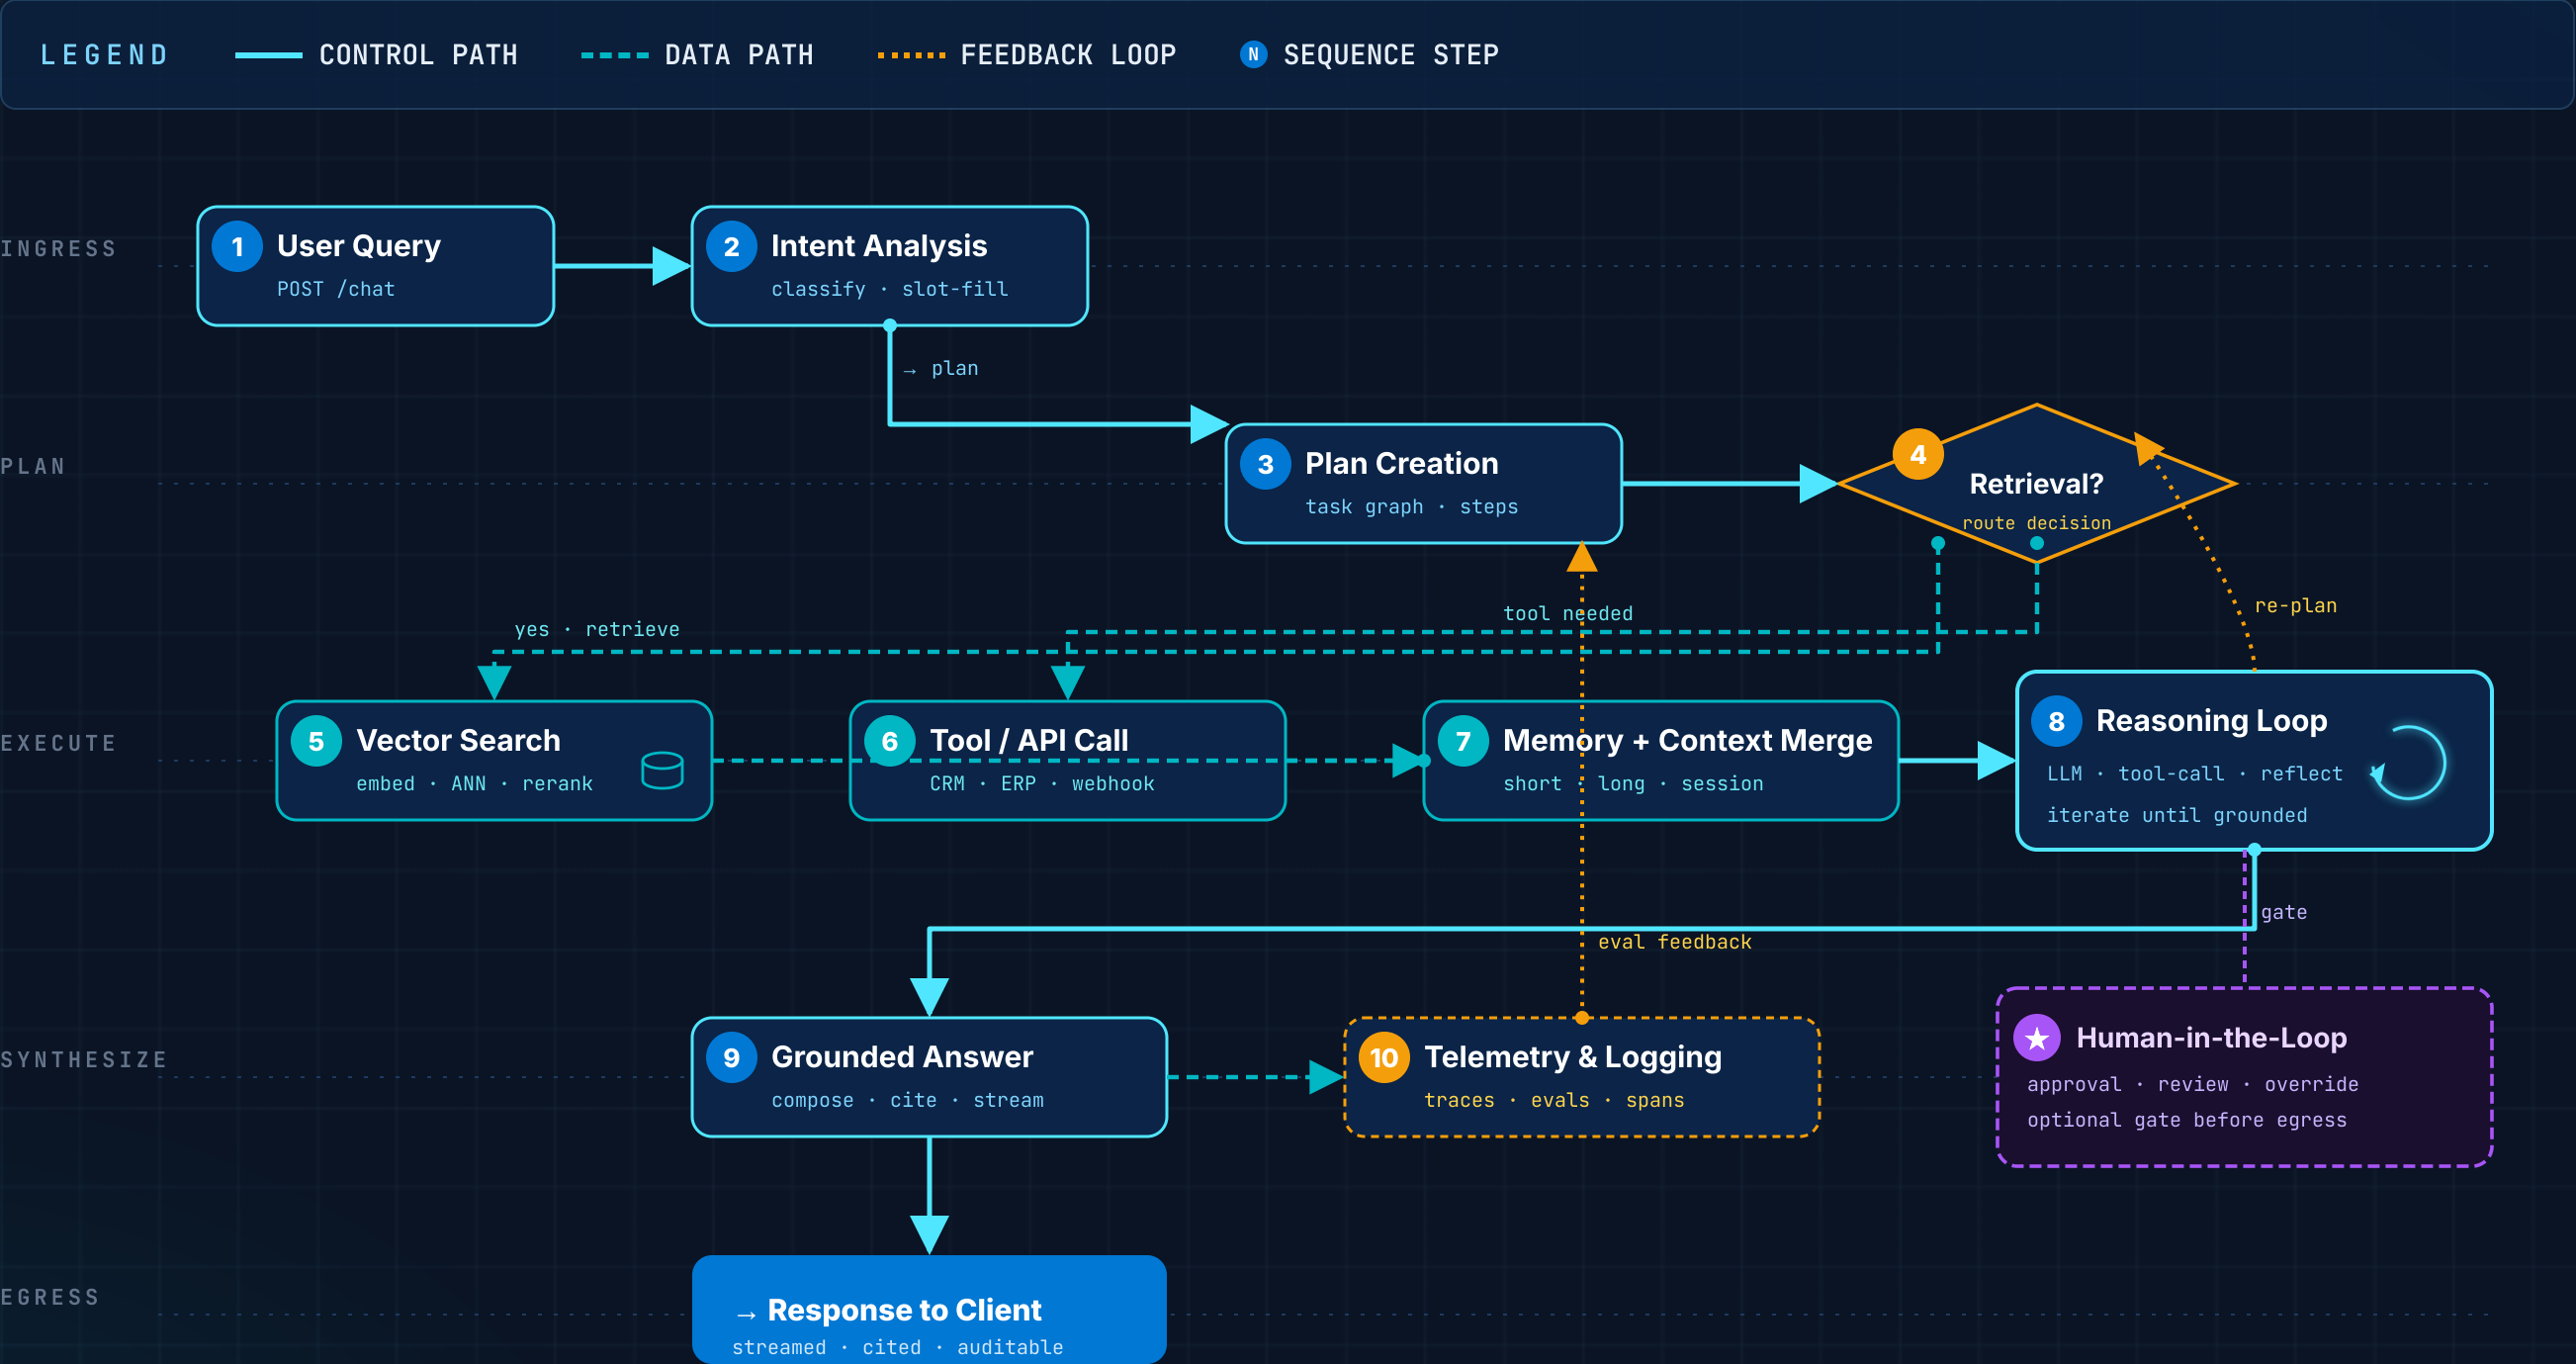

FLOW HIGHLIGHTS

- 1 Retrieval**
Hybrid vector + keyword search over enterprise corpora with reranking.
- 2 Reasoning**
Planner decomposes intent; LLM reasons over grounded evidence.
- 3 Tool use**
Router calls external APIs, calculators, and system-of-record actions.
- 4 Grounding**
Guardrails enforce policy; citations bind answers to source spans.
- 5 Response generation**
Composer streams a cited answer; telemetry feeds continuous evaluation.

Agentic RAG — Wiring Diagram

Numbered runtime sequence with control, data, and feedback paths

TYPICAL USE CASES

Where Agentic RAG ships value

- 01 Enterprise Helpdesk
Resolves L1/L2 tickets with grounded answers from KBs, ticket history, and CRM lookups.
- 02 Policy Assistant
Answers HR, legal, and compliance questions with span-level citations to authoritative documents.
- 03 Operations Copilot
Investigates incidents, queries telemetry, and proposes runbook actions — with human approval before execute.
